Access Atomic Learning in Blackboard

Atomic Learning provides an online resource that combines tutorials on how to use technology as well as online workshops that guide the application of technology in education.

This quick start guide will show you several ways to access Atomic Learning in Blackboard.

Option 1
On the Build Content menu in your course, click on Atomic Learning.

Option 2
In any text editor, click on Mashups > Atomic Learning.
Option 3

Option 4
On the Tools menu, click on TCC Atomic Learning Content.

Option 5
Under the TCC tab on the Blackboard landing page, click on the button Launch Atomic Learning.
