Course Availability

Course availability is controlled by the instructor. The default setting when your course shell is first created is unavailable. When you have finished setting up your course, you may make it available at any time. At a minimum, all online courses must be made available by the first day of class.

**Step 1**
Access the Control Panel of your Blackboard course.

**Step 2**
Click on the Customization link.

**Step 3**
Click on Properties.

**Step 4**
On the Properties page, find “Make Course Available” and then click the “Yes” radio button.

**Step 5**
At the bottom of the page click Submit.
