1. Purpose

This policy establishes requirements for eligibility for promotion of faculty-ranked employees of Tidewater Community College and the base promotional salary increases faculty members shall receive upon promotion in academic rank. The policy complies with the policy of the Virginia Community College System ([VCCS Policy Manual](#) section 3.07). It also establishes a process for review and recommendation for eligibility for multi-year appointment of teaching and professional faculty.

This policy applies to all regularly appointed full-time teaching, administrative, and professional faculty of Tidewater Community College. It also applies to full-time faculty on restricted appointments who have been assigned academic rank. However, in the case of grant- or contract-funded positions, the financial provisions of this policy apply only to the extent that they may be met within the resources provided by the grant or contract.

2. Policy

Promotion in academic rank recognizes and rewards faculty members whose accomplishments further the mission and goals of the college. Tidewater Community College's promotion process is based upon the fair and equitable application of qualifications, criteria, standards, and procedures.

Promotion is neither automatic nor the simple result of seniority. A candidate for promotion must meet both the technical requirements for promotion as delineated in the policy of the Virginia Community College System as well as the college's expectations for performance.

The Faculty Promotions Committee shall serve as the college's committee to review all multi-year appointments as well as applications for promotion within rank. The Faculty Promotions Committee shall be a standing committee with responsibility for the following: (1) review all promotion requests and make recommendations to the President via the Vice President for Academic Affairs & Chief Academic Officer, and (2) review and provide information and advice for the President's consideration on all faculty members eligible for three- and five-year appointments. Faculty who receive a "Does Not Meet Expectations" summative evaluation rating will be ineligible for promotion, reward and recognition, and will be ineligible for multi-year appointments, subject to the review of the Promotions Committee. Faculty who receive a "Meets Expectations" rating will automatically be granted multi-year appointments based on years of service, subject to the review of the Promotions Committee.

The distribution of the membership of the Faculty Promotions Committee shall be determined by the president and shall be from the various segments of the college faculty (teaching faculty, counselors, and librarians) and administrators. Where practicable, the faculty membership shall be in general proportion to the college population of each such faculty segment, but in no case shall there be less than one representative from each faculty segment. The various segments of the college faculty shall elect from their members their representatives on this committee. The president shall appoint administrators to this committee, but in no case shall administrative representatives exceed one-third (1/3) of the committee membership. Members of the Faculty Promotions Committee shall serve a two year term with half the members rotating off the committee each year.

It is incumbent upon the individual faculty member to initiate the promotion process in accordance with the college's established procedures and published schedule. A promotion in academic rank will be effective with the next regular contract period following approval of the faculty member's request for promotion. The faculty member must be fully qualified for promotion by the effective date of that contract. Contingency conditions for promotion must be entered in the special conditions or assignments section of the faculty member's contract and met not later than its effective date.

Upon promotion in academic rank, the faculty member's annual salary rate will be increased according to the following table of base promotional increases and the provisions that follow it.

BASE PROMOTIONAL INCREASES

New Rank	9-Month Faculty	12-Month Faculty
Assistant Professor	\$1,500	\$2,000
Associate Professor	\$2,500	\$3,333
Professor	\$3,500	\$4,667

The following general provisions will apply:

- a. Teaching Faculty. The promotion increase will be the base promotional increase established above or the amount required to bring the faculty member to the minimum of the salary range of the new rank as established annually by the State Board for Community Colleges, whichever is greater. For example, if the base promotional increase is \$1,500 and the amount required to bring the faculty member's annual salary rate to the minimum of the salary range for the new rank is \$3,000, the teaching faculty member's annual salary rate will be increased by \$3,000.
- b. Administrative/Professional Faculty. The promotion increase will be the base promotional increase established above. Academic rank salary ranges do not apply to administrative and professional faculty.
