Health Insurance: Employees may choose between the COVA Care Plan, COVA Connect Plan, COVA High Deductible Health Plan (HDHP), or TRICARE Supplement Plan.

Covered services under the *COVA Care* and *COVA Connect* plans may be subject to a plan year deductible, co-insurance or co-payments. The plans cover medical, dental, prescription drug, and behavioral health benefits. You may also select, at an extra cost to you, additional options that offer enhanced coverage for dental, out-of-network, and vision and hearing services. COVA Care is administered by Anthem and COVA Connect is administered by Optima.

The *COVA HDHP* has a high deductible that must be met before the plan pays for medical, behavioral health, and prescription drug benefits. Once the deductible is met, the member pays 20% co-insurance for most covered services. The COVA HDHP includes full dental benefits. There is no out-of-network coverage under this plan. It is a special type of health care plan that allows the member to set up a Health Savings Account (HSA).

All plans offer an extensive network of providers from which to choose. The actual network of providers varies by plan.

The TRICARE Supplement Plan is available to employees who are eligible for the Department of Defense's health benefit program as military retirees and are not eligible for Medicare. The TRICARE Supplement Plan works with all three TRICARE options (Standard, Extra, and Prime) to pay the balance of covered services that the member is responsible for paying. TRICARE is the primary insurance and the TRICARE Supplement Plan is secondary.

Employees may choose one of three membership levels: Single (employee only), Dual (employee + spouse *or* child), or Family (employee + 2 or more dependents).
